Welcome back to School

School website is
<http://www.glenburn.k12.nd.us>

For those that don't have access to our website or Facebook – the 2025 Consumer Confidence Report – Annual Drinking Quality report is available at City Hall.

With the new school season in session, please watch for kids crossing the streets before and after school and for any events that are being held at the school.

There is a dumpster on Seaton Street where you can discard your yard waste. Only grass cuttings and leaves can be disposed in this container. Please make sure that you only dump the contents of the bags and do not leave the bags there.

.....

Please **do not** blow grass clippings into the streets when mowing! This plugs the curbs for rain/water flow and is a breeding spot for mosquitoes. Thank you!

Reminder: Earth Recycling is at 7670 23rd Ave NW for any of your appliances, boxes, newspapers and a whole lot more.
701-362-0738

Reminder:

Please do not flush anything but toilet paper down the toilets. Our maintenance man is finding a lot of paper towels again in the sewer system. This clogs up the system and can cause back ups which is costly to get fixed.
